

**E-Mail & Letter Writing Campaign in Support of Public Policies  
for Environmental Sustainability & Climate Protection**  
(Facilitated by the Earth Care Committee )

*This Month's Take Action Letter:*

**TELL OUR SENATORS TO PASS A STRONG  
CLIMATE AND ENERGY BILL**

**HERE IS HOW YOU CAN SEND A LETTER:**

**For Those Without Internet Access:**

Pick up a “**sample letter**” at our Earth Care Committee table. You can simply add your own address, date it, and mail to the designated address(es). Feel free to revise or modify the letter as you would like.

**For Those With Internet Access:**

**Send an e-mail letter** provided at the “**Take Action**” link of the **Regeneration Project** (this is the same as the “sample letter” above) Go to [www.theregenerationproject.org](http://www.theregenerationproject.org), then at top of this homepage click on “**Take Action**”. You will see the current “Action Item” and the sample letter for you to send. There is a brief registration process the first time you use this.

*Special Note:* Our FCC has been a member of the **California Interfaith Power and Light (CIPL)** since 2003, [www.interfaithpower.org](http://www.interfaithpower.org). The Regeneration Project is the national, umbrella organization that covers 29 states, including California and the CIPL.

Thanks for your participation. We know that we cannot stem the tide of environmental deterioration and global warming by our individual stewardship actions alone (e.g. recycling, changing to energy efficient light bulbs, etc.). These letter-writing campaigns help to empower us to mobilize our collective actions for addressing critical environmental legislation and policy issues. Please watch for an email notices by the second Sunday of each month for other Take Action items.
